Elle White

FULLSTACK DEV

Career Objective

Software engineer with a decade of IT experience and a proven transition from support engineering into full-stack development. Strong foundation in backend systems, APIs, and debugging complex workflows in production environments. Brings deep operational insight, clear communication, and a builder's mindset to every project. Focused on writing maintainable code, improving system reliability, and continuing to grow as a backend engineer.

Technical Skills

- HTML5 | CSS 3 | JS ES6+
- React | Ember
- Python | Django | Flask
- MSSQL | postGRESQL
- Agile | Scum

Additional Skills

- VSCode | Command Line
- Github | BitBucket
- Jira | Confluence
- Insomnia | Postman

Education

2023 **Springboard**

Software Developer/
Fullstack Engineer Trainee

Work Experience

Junior Software Engineer

PlanetBids, Remote
Aug 2025 - Present

- Led modernization of a legacy workflow by replacing a ColdFusion-based system with a new web application feature, eliminating ~40,000 lines of legacy code and improving long-term maintainability
- Designed and implemented backend features and RESTful API endpoints within a multi-tenant SaaS platform, supporting scalable, production-grade workflows
- Built and contributed to microservices aligned with a service-oriented architecture strategy, improving system modularity and future scalability
- Maintained production reliability while delivering new features, resolving hundreds of live application issues and executing safe data corrections in high-impact customer environments

Associate Support Engineer

PlanetBids, Remote
Jan 2024 - Aug 2025

- Served as primary technical liaison between Client Success and Engineering, accelerating bug reproduction and resolution cycles
- Identified recurring issue patterns and contributed to workflow improvements that reduced operational overhead
- Innovated web scraping strategies for vendor identification and engagement, resulting in a 100% increase in our vendor database and significantly expanding our market reach and business opportunities in new states

Asst Dir/ Preschool Teacher

Early Learning Center, Winchester KY
2018 - 2022

- Designed and implemented a unique, tailored curriculum in a self-created classroom environment, successfully aligning with state preschool standards while catering to the diverse needs of special education students
- Oversaw operational aspects and coordinated multidisciplinary teams in a special needs daycare setting, cultivating skills in project management, team collaboration, and problem-solving
